In partnership with the Mayor of Windhoek, the Social Agenda Sessions are our bi-monthly intersectoral stakeholder engagements held at the City of Windhoek. It includes presentations and an After Cocktail Networking Session, sponsored by the CoW.

We pool stakeholders and key speakers working on solution-based programmes, projects, from the development, community, government, public, private and political sectors.

Bridge knowledge gaps between the different sectors.

Craft organic intimate dialogue and networking between stakeholders and the different sectors.
